

GfG Environmental Policy Statement

GfG Gas Detection UK Ltd (GfG) is committed to minimising the impact of our operations on the environmental

GfG is committed to protecting the environment by complying with all relevant UK environmental statutory and regulatory requirements and working in accordance with best practices currently in use by the industry. This includes our commitment to continually improved the environmental management system to enhance environmental performance.

To help achieve these goals the company uses an integrated Management System which is independently audited to the requirements of ISO 9001 and ISO 14001.

GfG recognises its duty and aims to:

- Comply with appropriate legislation, regulations and other legal requirements
- Identify and evaluate the environmental aspects associated with the delivery of our products and services to control and reduce any environmental impact, including prevention of pollution and the potential impact on climate change
- Be responsible in the use of natural resources and minimise waste and energy consumption
- Train employees to ensure that they are environmentally aware and that neither they, the community nor the environment are exposed to harm because of GfG operations
- Protect the environment by striving to prevent and minimise our contribution to pollution of land, air, and water
- Manage and dispose of all waste in a responsible manner
- Regularly communicate our environmental performance to our employees and clients
- Actively promote recycling both internally and amongst our clients and suppliers
- Manage our supply chain to encourage suppliers to minimise the use of materials, energy or processes which may be harmful to the environment
- Develop our management processes to ensure that environmental factors are considered during planning and implementation
- Monitor our output and continuously improve our environmental performance
- Use an accredited programme to offset our environmental impact generated by our activities and achieve net zero carbon by 2040

We recognise that to achieve this through our operations we will:

- Put in place environmental objectives using the above as a framework.
- Co-operate and collaborate with other employers when we work at premises or sites under their control
- Work to gain co-operation of all employees, contractors and sub-contractors

The policy statement will be regularly reviewed and update as necessary. The Management team endorses this policy statement and is fully committed to its implementation.

This Environmental Policy Statement is communicated throughout GfG and is publicly available to interested parties.

Signed: 

Mr John Balagué, Director
